

# 3 Reasons why Green Gobbler Is Different from Other Drain Openers...

## **#1 Green Gobbler is the only Drain Opener that can be used to SAFELY UNCLOG TOILETS!!!**

### The details...

**Green Gobbler doesn't produce dangerous heat and won't damage your toilet!  
When caustic drain openers are poured into your toilet the water heats to up to 140 degrees in a matter of seconds!**

**Porcelain toilets aren't made to withstand that kind of heat and can crack in an instant - leaving you with a far worse problem than a clogged toilet.**

**Green Gobbler doesn't work by heating up like caustic drain openers do.**

---

## **#2 Green Gobbler cuts through the toughest clogs! IT'S GUARANTEED TO WORK!!!**

### The details...

**Green Gobbler Dissolves:**

**HAIR - GREASE - PAPER PRODUCTS - FOOD - SOAP SCUM  
just about anything that goes down your household drains!**

---

## **#3 Green Gobbler is Safe for your Pipes, Garbage Disposal and even Septic System!**

### The details...

**Green Gobbler is an entirely new chemistry in the drain opening industry!**

**Green Gobbler is a POWERFUL formula that cuts through  
clogs and yet its formula is Biodegradable and  
Environmentally Friendly!**

**So Green Gobbler is safe to use in your septic system!**

**Get rid of those toxic drain openers forever!**

**More to come...**
